SKILLS

Languages	Java, Python, SQL
Frameworks	Django, Fast API, Spring Boot
Databases	PostgreSQL, Redis
Tools	AWS, Docker, Postman, SonarQube

WORK EXPERIENCE

SDE-1

May 2022 – Jan 2024

Varaha ClimateAg

Bengaluru, IN

- Spearheaded the design and development of sophisticated **REST APIs**, showcasing expertise in scalable and resilient back end solutions. Leveraging **Python**, **Django**, **Fast API**, and **PostgreSQL**.
- Innovated and led the complete back end development for carbon credit generation through bio-char processing, resulting in the organization's first cash flow. Developed a precise **ML model** utilizing **Open CV** and **TensorFlow** for bio-char volume calculation with **10%** deviation, employing **Engineering Drawing** methodologies during model training.
- Optimized data collection processes by migrating to the **Open Data Kit (ODK)**, demonstrating strategic thinking and an ability to streamline operations. Introduced personalized QR codes for field partners, enhancing efficiency by minimizing redundancy and facilitating quick issue identification within partner-specific datasets.
- Engineered a resilient notification system utilizing **Firebase Cloud Messaging**, highlighting proficiency in system architecture and API design for seamless communication. This system played a pivotal role in ensuring users' informed and secure on-boarding, delivering updates on carbon credits, farm status, and promptly notifying users of any system or user-initiated modifications.

Associate Software Engineer

May 2021 – April 2022

Codemantra Pvt. Ltd.

Chennai, IN

- Proficiently addressed client queries and implemented solutions using **Spring Boot** and **PostgreSQL**, demonstrating a strong grasp of back end development.
- Executed user-friendly designs with **ReactJS**, ensuring an intuitive and engaging user experience in frontend development.
- Conducted thorough end-to-end unit testing utilizing **SonarQube**, maintaining a commitment to code quality and robust software development practices.

EDUCATION

Bachelor of Technology in Information Technology, VIT, Vellore

2017 - 2021

CGPA: 8.7

ACHIEVEMENTS

- Successfully orchestrated a **Hackathon** event for Codemantra employees, drawing active participation from approximately 100 internal contributors, fostering innovation and collaboration within the organization.
- As the **Center Lead** at Anokha NGO, orchestrated educational classes and events for underprivileged children, striving to provide opportunities and support for their holistic development.
- Secured a position as a finalist in **IDEATHON 2.0**, showcasing prowess in idea pitching and implementation within a competitive environment.
