Skills

Languages & Frameworks :

Java, C++, HTML, CSS, JavaScript, ReactJs, NodeJs, Express.js, SQL

Technologies & Tools:

Git, GitHub, Postman, Visual Studio Code, IntelliJ IDEA

Coursework:

Data Structures and Algorithms, OOPs, DBMS, Operating System, Web Development with MERN STACK.

Education

Chitkara University

B.E. in Computer Science and Engineering

Expected graduation date: Jun. 2024

CGPA: 9.69/10

Relevant Courses: Full Stack Web Development (MERN), Operating System, DBMS
JAVA, Data Structures and Algorithms, OOPs (Java).

Experience

CodeClause

Aug. 2023 - Sep. 2023

Web Development Intern

- Designed and developed interactive user interfaces with React.js, ensuring seamless and engaging user experiences.
- Built scalable and performant backend systems using Node.js and Express.js, implementing RESTful APIs to facilitate communication between frontend and backend components.

Projects

StudyNotion

ReactJs, NodeJs, ExpressJs, MongoDB

- Fully Functional Ed-Tech Platform:** Developed a robust educational platform using MongoDB, Express.js, ReactJS, and Node.js for seamless performance and scalability.
- Interactive Learning Experience:** Enriched the platform with interactive features to engage students in learning activities, ensuring a dynamic and immersive educational experience.
- Instructor Showcase:** Established a dedicated platform for instructors to demonstrate their expertise and engage with a global audience of learners, fostering knowledge exchange and community building.
- Secure User Authentication System:** Streamlined registration and login functionalities with Node.js, Express, and MongoDB while prioritizing data security.

COVERCART

ReactJs, NodeJs, ExpressJs, MongoDB

- Developed a Full - Stack E-Commerce website using the MERN STACK.
- Integrated MongoDB as the database to store and retrieve product information, user data, and order details.
- Essential features like User Registration and Authentication, Shopping Cart and Checkout, Order Management.

MOVIEFLIXDB

Javascript, ReactJs

- Front - End React Movie Application and integrated OMDB API for comprehensive movie searching and database integration.
- Implemented powerful search functionality for users to find movies by title with instant results.
- Utilized Javascript and ReactJs along with Axios to develop a dynamic and interactive movie website, "MovieFlixDB".

Achievements

Coding Profile

- Solved 800+ questions on LeetCode, Geeks For Geeks, Code studio.
- Contributed to a live Web Development projects, demonstrate expertise in both Front-end and Back-end development.
