Education

Dr. A.P.J. Abdul Kalam Technical University

B.Tech in Information Technology Sep. 2020 - May 2024

Experience

Trando

October 2023 – Present Software Developer (Backend)

Remote

- Engineered and optimized backend systems using Node.js, Express.js, and MongoDB, resulting in a 40% reduction in API response time and seamless scalability for a rapidly growing user base
- Streamlined database architecture, reducing query response time by 25% and improving data access speed for an EdTech website serving over 10k students.
- Led the development of the admin panel, optimizing the management of the EdTech platform.
- Developed the e-commerce section of the website to enhance the user experience.
- Performed WhatsApp and mobile integration using Twilio for enhanced communication features.
- Developed a high-performance backend architecture using Node.js, Express.js, and MongoDB to power a health fitness website, resulting in a 40% reduction in page load time and delivering real-time data updates to users.

Skills: Node.js, Express.js, MongoDB, AWS S3, Twilio

Science and Technology Co-operative Society Ltd.

May 2023 – October 2023 Full Stack Developer Intern

Remote

- Lead the development of the localization of a government cooperative bank website, enhancing accessibility and inclusivity for a user base of 80 Hindi speakers
- Collaborated with team members (size: 5-8) using version control systems such as Git to organize modifications and assign tasks

Technical Skills

Strongest Areas: Data structure and Algorithms, Competitive Programming ,Backend Development , Object Oriented Programming . **Languages:** Hindi, English. **Tools:** VS Code , Git **Programming Languages:** C, C++, Python, HTML, CSS, JavaScript. **Technologies/Frameworks:** Nodejs , Expressjs ,react.js **Database:** MongoDB,MySQL **Soft Skills:**Leadership, Writing, Public Speaking

Projects

SD-campus (Internship-Project) | *Node.js, Express.js, MongoDB,AWS* (VIEW)

March 2023

- Optimized backend performance by implementing Node.js and Express, resulting in a 20% reduction in response time, significantly improving system efficiency and overall user experience..
- Played a key role in the development and optimization of a store website, showcasing proficiency in building robust and user-friendly e-commerce platforms.
- Collaborated with cross-functional teams, including designers and front-end developers, to ensure cohesive integration of backend functionalities with the store's user interface.

E-commerce (Backend) | *Reactjs, Nodejs, Redux, Expressjs, MongoDB* (LINK)

December 2022

- * Express + Node.js backend API with RESTful endpoints and MVC architecture
- * Search and filter catalog by keywords, categories and price range Detailed product pages with image carousel, pricing, description and reviews
- * eact frontend with routing, responsive UI components and Redux state management MongoDB database with Mongoose ORM to handle user accounts, product catalog, orders and cart data

Achievements

- * Achieved **1873** in Weekly contest 375 among 30000+ participants
- * Attained **279** March Lunchtime Div 3 2022 among 20000+ participants
- * Selected for **Ranked-1** in College Coding Competition 2022 among 100+ teams
- * Ranked **1079** in kickstart Round (H) 2022 among 25000+ participants
- * Stood **150** in Codechef Starters 25 (Div 2) among 20000+ participants.
- * **Top 11 percentage** on Leetcode(Highest Rating – (1710)) (LINK).
- * **Specilist** on Codeforce(Highest Rating – (1468)) (LINK).
- * Secured rank **139** in InterviewBit September 1.0 2022.
- * Secured rank **95** in Newton School Coding Contest
- * Solved **2500++** questions on Data structure and Algorithm on various platform like **Codechef** , **codeforces** ,**Geeks for Geeks** ,**Spoj** ,**Atcoder**, **Leetcode**.
