COURSEWORK

UNDERGRADUATE

Algorithms Design and Analysis

Artificial Intelligence

Computer Networks

Data Structures

Database Management System

Object Oriented Programming

Operating Systems

Software Engineering

Big Data Analytics

ADDITIONAL

Front End Web Development

SKILLS

PROGRAMMING

Languages

• Java • C# • Python • C

Frontend

• ReactJs • Redux • Javascript

• TypeScript • HTML • CSS

Frameworks and Libraries:

• Spring Boot • REST Api

• Junit & Mockito

Databases

• MYSQL • Firebase

Tools

• Unity3D • Unreal Engine

• Git Bash • Postman

SOFT SKILLS

- Team Player
- Bias for action
- Deliver Results

WORK EXPERIENCE

ADIDAS | SOFTWARE DEVELOPMENT ENGINEER

Full Time | June 2022 - Present

- **Demonstrated expertise in React.js, TypeScript, CSS, and HTML**, leading frontend development across multiple projects.
- **Realized a remarkable 30% increase in user engagement** through innovative frontend solutions and enhanced user experiences.
- **Seamlessly integrated APIs with the frontend architecture using Redux**, enabling smooth data flow and efficient state management between backend and frontend layers
- **Engineered scalable, high-performance REST APIs using Java Spring Boot**, achieving 90% code coverage for critical endpoints.
- Conducted comprehensive API testing with Postman, **contributing to a 30% reduction in post-release defects**.
- Ensured high code quality through Sonar & Lint analysis, achieving a **commendable 25% improvement in overall code maintainability**.
- **Contributed to peer reviews and mentored juniors**, fostering a culture of continuous learning and improvement within the team.

PROJECTS

VOICE BASED VIRTUAL ASSISTANT | [PROJECT](#)

Python, Pyttsx3, Artificial Intelligence

- Developed "Friday," a virtual assistant using NLP and Speech recognition, achieving a **90% accuracy in recognizing speech commands** through Arduino Uno.
- Implemented advanced algorithms, **contributing to a 20% increase** in overall virtual assistant performance.
- Executed diverse tasks with precision, updating calendars, opening applications, and controlling Smart Home devices.
- **Enhanced user experience by expanding functionalities**, enabling seamless phone calls, text messages, and navigation.

ENDLESS RUNNER | [PROJECT](#)

C++, Unreal Engine 5

- Led the development of an endless runner game in Unreal Engine 5, **reducing load times by 20%** through seamless level streaming.
- Integrated dynamic audio, Created efficient animations, including sliding motions, **maintaining a consistent 60 FPS**.
- Developed AI pursuit system, **contributing to a 25% rise in challenge and replay value**.
- Achieved optimal performance, **ensuring a stable 45 FPS on mid-range hardware**.

AWARDS & CERTIFICATES

- | | | |
|------|-------------|---|
| 2023 | Tech Summit | Received recognition as the top volunteer for conducting a knowledge transfer (KT) session. |
| 2023 | Tech Summit | Award for creating the Tech Summit application with an outstanding user experience |
| 2023 | Tech Summit | Award for conducting an engaging Zumba session |
