PROFESSIONAL PROFILE

Dynamic and results-oriented software engineer with a strong proficiency in Python, SQL, and the MERN stack. Skilled in front-end development with CSS and HTML, with a keen eye for design aesthetics and user experience. Demonstrated ability to translate complex requirements into efficient and scalable solutions through hands-on projects. Possess a solid understanding of database management, static and responsive web design principles. Proven track record of collaborating effectively in cross-functional teams to deliver high-quality solutions. Passionate about leveraging technology to solve real-world problems and drive innovation. Eager to contribute my technical expertise and creativity to drive success in challenging projects.

PROJECT EXPERIENCE

Responsive and Static Website Development :-

Developed responsive and static website from scratch using HTML, CSS and bootstrap. The website was designed to be visually appealing and user-friendly across various devices and screen sizes.

Recipe Recommendation System :-

Developed a Recipe Recommendation System using Python and SQL to provide users with personalized recipe suggestions based on their ingredient preferences. The system allows users to input ingredients they have on hand, queries a SQL database of recipes, and recommends recipes that match those ingredients.

Event Management System (In development) :-

Developing an Event Management System using the MERN stack, which allows users to create, browse, and RSVP to events. Users can sign up for an account, create events with details such as title, date, location, and description, and browse existing events to RSVP.

Auxiliary Projects :-

Projects such as Calculator application, Student Grades Tracker, Personal Portfolio Website, etc., are some of the auxiliary Projects.

EDUCATION

Bachelor of Engineering

Global Academy of Technology, Bengaluru.

PUC

Sir M V PU College, Davanagere.

High School

M M Govt High School, Holalkere.
