Experience

Software Development Engineer II Wayfair LLC *Bangalore, India* **11/2023 - Present**

- Engaged in the development of a Template Manager tool that empowered the marketing team to craft email templates for both batch and triggered communications.
- Achieved 100% cost reduction by eliminating the need for external templating tools like Movable Ink or Mailchimp.
- Empowered the marketing team with full autonomy to create and maintain templates for campaigns.
- Resolved issues related to dynamic template creation, allowing templates to be hydrated with recommended customer data at runtime

Consultant II Neudesic Technologies PVT. LTD. *Bangalore, India* **12/2020 - 10/2023**

- Quickly ramped up on React, JavaScript, and state management concepts to develop and maintain applications for multiple high-end clients.
- Played a crucial role in bug fixes and enhancements, ensuring the stability and performance of client applications.
- Collaborated in Agile methodologies, efficiently iterating to meet client requirements and deadlines.
- Engaged in architectural discussions, contributed to backend API development, and provided mentorship to junior developers, leveraging expertise gained from diverse client projects.
- Earned multiple recognitions and got nominated for promotions from clients and within the company due to high quality solutions and learning agility.

Projects

- **Email Template Manager (React, Handlebars, Redux):** Developed a dynamic template manager tool, utilized for crafting email templates tailored to Wayfair customers. Employed Handlebars and Moustache tags to inject customer-specific data at runtime, ensuring personalized content for each campaign.
- **Early Childhood App (React, React Native, Nest.js):** Developed a custom children education app for better connectivity between parents, staff, and leadership.
- **Knowledge & Support Request Portal (React):** Built a unified tracking system for requests raised by users, improving resolution experience.
- **Rick and Morty POC (React Native):** Created a character listing app from the famous sitcom with a login page.
- **Task Tracker POC (Vue.js):** Developed an app to keep track of todo lists with reminders.
- **Expense Tracker POC (MERN stack):** Created a simple app to track expenses using the MERN stack.

Education

BE CMR Institute of Technology *Bangalore, India* **08/2016 - 08/2020**

- Major in Electronics and Communication Engineering (CGPA 8.12)
