SUMMARY

Highly motivated and passionate individual whose aim is to build innovative software solutions to enhance business productivity. Capable of mastering new technologies.

EXPERIENCE

Member of Technical Staff

VMware 04/2023 - Present Bangalore, India

Tech stack: Django, Rabbit MQ, Redis, Docker, Kubernetes

- Working on a web application that helps failover/ failback different VMware SaaS applications across multiple datacenters
- Implemented auto healing of network and infrastructure alerts for VMware SASE servers using vRealize Orchestrator and 'SecureShell framework', that brought down manual intervention to 30%
- Worked on a web application that notifies external/ internal VMware customers of incidents and maintenances
- Adhered to security standards throughout the project's lifecycle to ensure integrity and confidentiality by implementing complex ACLs

Software Engineer

Cyware Labs 06/2022 - 03/2023 Bangalore, India

Tech stack: Python, Django, Flask

- Interviewed qualified applicants for entry-level technical position (SDE Internship)
- Worked on CSAP (Cyware Situational Awareness Platform - software for delivering and tracking cyber security threats in real-time)
- Collaborated on developing new features and addressing significant bug fixes within the system.
- Collaborated with product managers to understand requirements and translated them into technical solutions.
- Worked closely with QA engineers to develop comprehensive test plans and ensure the reliability and stability of the software.

Software Engineer Intern

Cyware Labs 11/2021 - 06/2022 Bangalore, India

- Continuously researched and evaluated new technologies to drive innovation and improve development processes.
- Gained hands-on experience in Python, Django, Postman, and Git.
- Worked closely with cross-functional teams to understand project requirements and contribute to technical discussions.
- Engaged in continuous learning and skill development through mentorship, training sessions and self-directed learning initiative.

EDUCATION

Bachelor of Technology - Computer Science and Engineering

Lovely Professional University

2018 - 2022 Jalandhar, Punjab CGPA 8.12 / 10

Senior Secondary School

D.C. Model Senior Secondary School

2016 - 2018 Ferozepur, Punjab Percentage 79.0 / 100

CERTIFICATION

Python Django Dev To Deployment

Udemy, May 2022

DSA - Self Paced

GeeksforGeeks, June 2020

ACHIEVEMENTS

Received Early Champion Award during Internship at Cyware Labs

Got Impromptu Award for providing VPAT certification for Cyware's software product

5 stars in problem solving on Hackerrank

Cleared SSB interview for Indian Army in first attempt

PERSONAL PROJECTS

GST Smart Billing

10/2023 - Present Web application

Django, MySQL ORM, HTML, CSS, JavaScript

- A web application that streamlines inventory management, invoice generation, and payment tracking
- Custom/ pre defined taxes in the admin console can be added to individual items or invoices that reduces manual errors, resulting in improved efficiency

Expense Tracker

12/2022 - 07/2023 Mobile application

Django, React Native, SQLite

- A hybrid mobile application that enables user to track expenses with ease
- The application automatically reads user transaction messages, passes it through a machine learning model, filters, categorises it and shows it to the user graphically
- Worked in a team of 2 members, following best coding practises

Word Cloud Polling Application

06/2022 - 07/2022 Web Application

HTML, CSS, JavaScript, Django

- A web application with simplistic and intuitive UI that enables users to conduct polls and review results graphically
- A multiple choice based interface for polling that displays pre-defined options and most popular items for the current poll in real-time
