EDUCATION

Indian Institute Of Information Technology, Nagpur
Electronics and Communication Engineering (CGPA : 8.14)

Maharashtra, India
Dec 2021 – May 2025

ACHIEVEMENTS

Competitive Programming

- Achieved a title of **Expert**, on CodeForces with a max rating of **1653**.
- Among **Top 2% CodeForces** users in **India** the most active Competitive Programming Platform.
- Rated as **Knight** on **LeetCode** (**Top 2%**), and as **4 Star** on **CodeChef** by achieving max rating of **1878**.
- Earned a commendable **Global Rank of 118** in CodeChef Starters 104, outshining over 21k participants.
- Achieved a **Global Rank of 1026** in CodeForces Round 113 among 20k+ participants
- Secured a **Global Rank of 1584** in CodeForces Round 916, surpassing 18k+ participants.
- Solved over **1000 DSA/CP Problems**, showcasing proficiency in problem-resolution and algorithm design.

Hackathons [Github](#)

- Attained a position among the **Top 3 Teams** at the institute level in the **Google Cloud and GFG Hackathon**, leading to qualification for the regional level competition.
- Our team has qualified for the regional level of the **Smart India Hackathon (SIH)**, a prestigious event organized by the Government of India. This recognition highlights our innovative problem-solving skills and technical expertise, showcasing our ability to address real-world challenges effectively.

PROJECTS

DocApp Live | [GitHub](#) | *ReactJs, NodeJs, Express, MongoDB, AntDesign, Flask, Machine Learning*

- Developed a machine learning model using Naive Bayes and SVM to predict diseases based on user-provided symptoms, achieving an accuracy of over 95%
- Implemented features such as appointment scheduling with certified doctors and doctor application for listing services, leveraging the MERN stack for robust development and scalability.
- Achieved a significant 30% reduction in time and expenses for users seeking healthcare services.

Messenger Link | *React, NodeJs, ExpressJs, MongoDB, Chakra UI, Web Socket*

- Engineered a real-time chat application using the MERN stack, featuring WebSocket communication for instant message delivery within a latency of less than 1 second.
- Integrated robust user authentication mechanisms, including JWT (JSON Web Tokens), to ensure secure access and data privacy.
- Implemented adaptive updates and message synchronization techniques, leveraging websockets, to optimize the user experience and facilitate seamless instant messaging across devices.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, Bash, HTML/CSS, React Native

Frameworks and DataBases : React, Node.js, ExpressJs, Flask, MongoDB, MySQL, Pandas, Numpy, Redux

Developer Tools: GitHub, VS Code, Visual Studio, PyCharm, Postman, Anaconda

CourseWork : Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Machine Learning

POSITION OF RESPONSIBILITY

DotSlash Community | *Competitive Programming Club of IIITN*

- Provided mentorship and guidance to over 600 classmates and juniors in Data Structures and Algorithms (DSA) and Competitive Programming (CP), fostering a collaborative learning environment and contributing to the academic development of peers

TantraFiesta | *Annual TechFest of IIIT Nagpur*

- As Co-Lead of the Content Team, I effectively guided the team to meet strategic goals, enhancing content quality and resulting in a 20% increase in overall footfall.
