

Tanmayi D

 tanmayidev |  tanmayi-d |  tanmayi.dev@gmail.com |  +91 9535062264

SKILLS

Programming Languages	C , C++ , Python, Java, JavaScript, TypeScript
Frontend Technologies	HTML, CSS, React, Redux, Recoil, BackboneJS
Backend Technologies	Express, Node, Django
Databases	PostgreSQL, SQLite, MongoDB
Testing Frameworks	Jest, Vitest, Playwright
CI/CD	GitHub, GitHub Actions, Docker, Jenkins
Design Tools	Figma, Unity3D, Blender

EDUCATION

Visvesvaraya Technological University	Bangalore, India
Bachelor of Engineering in Computer Science (CGPA: 9.44/10)	2018 - 2022

WORK EXPERIENCE

Software Engineer, SentinelOne	Aug 2022 - Present
– Led the development of a Breached Password Protection application and configured compromised credentials protection and dashboard features. – Architected Micro-Frontend Integration using iframe for three applications and optimized the setup to reduce AWS costs by enabling parallel tests for multiple teams. – Automated build processes, including nightly runs and CDN uploads, improving efficiency. – Developed and consumed accessibility-complaint components across 70+ pages, ensuring full a11y compliance with comprehensive scan tests. – Implemented State Management Optimization, minimizing unnecessary reloads to reduce network requests. – Implemented internationalization (i18n) across applications, supporting multiple languages including Spanish and Japanese. – Devised and executed Smoke Tests for 60+ features within the Identity Console app. – Drove the development of essential modules such as Threat Detection, RangerAD Actions and Onboarding for customer integration across multiple apps. – Identified and resolved security vulnerabilities using Snyk and OWASP standards for secure code development. – Established and maintained over 8 Jenkins pipelines for automation and release management, including GitHub Actions configuration. – Engineered a robust and comprehensive testing framework for component and unit testing, significantly enhancing code-coverage.	
Software Engineer Intern, Project StepOne	Aug 2021 - Feb 2022
– Independently developed a Blog Dashboard for volunteer-verified blog publishing. – Created figma designs and developed a responsive website, StepOne Care, dedicated to aiding individuals seeking assistance during the COVID-19 pandemic.	

PROJECTS

LaunchED - Online Course Management System HTML, CSS, Django, SQLite	Link to Code
Rate Limiter Express, Node, TypeScript, Jest	Link to Code
Serene Shop - Ecommerce application UI/UX, React, CSS	Link to Demo
Material3 CSS Components Library CSS, Gulp, Figma	Link to Demo
