EDUCATION

B.Tech, Mechanical Engineering

National Institute Of Technology(NIT), Calicut

07/2019 - 05/2023

7.06

WORK EXPERIENCE

Data Science Intern

Innodatatics

08/2023 - 12/2023

Hyderabad

Achievements/Tasks

- Developed and deployed a text extraction system for store bills, utilizing Paddle OCR to accurately extract text from invoices, achieving a 95% accuracy rate in text recognition.
- Implemented the solution using Streamlit, which enabled real-time user interaction and streamlined the process of uploading and processing images, significantly enhancing user experience.

PERSONAL PROJECTS

Hotel Management System (03/2023 - 04/2023)

- Built and implemented a comprehensive Hotel Management System to streamline operations, enhancing the efficiency of the check-in and check-out processes by 30% through automation.
- Engineered a robust customer management module , effectively capturing and securely storing detailed customer information, leading to a 25% improvement in data retrieval speed.
- Designed and integrated a dynamic reporting tool that generates daily guest summary reports, increasing report accuracy by 40% and reducing preparation time by 50%.

Electric Vehicle Health Monitoring & Range Prediction Using ML (04/2023 - 06/2023)

- Designed an advanced predictive model for electric vehicle (EV) range estimation using Random Forest, A*, and LSTM algorithms, which improved the accuracy of route planning and breakdown probability assessments by over 35%.
- Integrated real-time data capabilities using Firebase , enabling dynamic updates of charging station statuses, which enhanced user experience by allowing drivers to make informed journey plans based on real-time battery charge and distance parameters.

Movie Recommendation System Using ML (06/2023 - 08/2023)

- Engineered a sophisticated Movie Recommendation System using machine learning techniques, including Content-Based and Collaborative Filtering, which enhanced personalized user recommendations.
- Optimized recommendation accuracy by implementing advanced algorithms to analyze past user preferences and similarities in user ratings, leading to a 40% increase in user engagement based on system-generated suggestions.

POSITIONS OF RESPONSIBILITY

CONVOCATION COMMITTEE (04/2022 - 05/2023)

Led and coordinated the convocation event at one of India's premier technical institute, overseeing logistics, scheduling, and team management to ensure a seamless execution.

ACHIEVEMENTS

Solved 300+ problems on Leetcode

Secured a best rank of 230 in Codechef and 570 in Codeforces.
