EDUCATION

Bachelor of Technology in Computer Science Guru Nanak Dev University, Amritsar, India	<i>Cumulative GPA: 9 / 10</i>	2016-2020
XII Boards CBSE Kendriya Vidyalaya No.3, Patiala, Punjab, India	<i>Percentage: 90.4 / 100</i>	2013-2015
X CBSE Kendriya Vidyalaya No.3, Patiala, Punjab, India	<i>Cumulative GPA: 10 / 10</i>	2012-2013

RELEVANT EXPERIENCE

Atlan Remote, India	Software Engineer-II	02/2024-Present
- Spearheaded the design and implementation of cloud agnostic solution for Argo workflows, enhancing cross platform (AWS, GCP, Azure) compatibility, resulting in a remarkable 30% growth in sales - Contributed to connector engineering team, focusing on the development and enhancement of multiple connectors, including BI, SQL, NoSQL connectors (Snowflake, Tableau, Salesforce, Sigma, PowerBI, BigQuery, Kafka)		
Cyware Labs Bengaluru, India	Senior Software Engineer-II – Team Lead	08/2023-01/2024
- Led a team of four members to efficiently manage support and development tasks for the product. - Orchestrated the team's efforts throughout the development cycle, from conceptualization and design to coding, testing and deployment, resulting in 15% reduction in project completion time, ensuring alignment with project goals and timelines		
Cyware Labs Bengaluru, India	Senior Software Engineer-I	08/2022-07/2023
- Crafted a Golang microservice with Server Sent Events, slashing server load by 30% through polling elimination. - Engineered PostgreSQL Table Partitioning, Accelerated record retrieval by 20%		
Cyware Labs Bengaluru, India	Software Engineer-II	08/2021-07/2022
- Implemented Backup service which allows to take backup of all databases and restore it from frontend for compliance purpose. - Migrated Platform from MySQL to PostgreSQL using pgloader which overall increased data ingestion rate by 20%.		
Cyware Labs Bengaluru, India	Software Engineer-I	08/2020-07/2021
- Developed Background process tracker and service tracker in the platform which increased UI experience. - Optimized performance and response time by 30% using caching and Django rest framework optimization techniques		
Cyware Labs Bengaluru, India	Software Engineer Intern	03/2020-07/2020
- Improved Elasticsearch relevancy by function scoring, which boosted mechanisms by 25% - Developed RESTful APIs for bulk operations in Django using caching techniques on one million records		

TECHNICAL SKILLS

- Proficient:** Python, Django, Golang, Django Rest Framework, MySQL, GIT, Elasticsearch, PostgreSQL, Docker, Kubernetes
- Familiar with:** React.js, HTML, CSS, Machine learning, Data Science, C, C++, Java, JavaScript, Jenkins, AWS, Minio, Redis, Unicorn, Nginx, PyTest, Kotlin, GCP, Azure, Argo workflows

PROJECTS

Bookstagram	Django/HTML/Machine learning	01/2020
- Directed a team of three core members using pair programming, which boosted the teams' productivity - Book recommendation system using machine learning techniques and improved recommendations.		

ACHIEVEMENTS

- Achieved top 12% placement in CodeVita Season 8 by solving complex coding challenges; ranked 6453 out of 55,654.
- Secured a position in the top 3300 out of 60,000 participants in the second round of the prestigious Hackwithinfy competition
