EXPERIENCE

BEYOND INNOVATION

June 2022 – August 2022

Back End Developer

- Collaborated with the development team to design, develop, and deploy scalable and maintainable back-end solutions.
- Achieved 100 % code coverage and ensured reliability of backend functionality.
- Implemented RESTful APIs using Node.js and Express.js to facilitate communication between the front-end and back-end.
- Optimized API endpoints, reducing response times by 25% and improving overall application performance.
- Implemented authentication and authorization mechanisms, enhancing the security posture of web applications.
- Integrated MongoDB as the database to store and retrieve data efficiently.

BINANCE BLOCKCHAIN IDEATHON RUNNER UP

August 2022

Back End Lead

- I made the whole backend part in which , I connected the metamask wallet and smart contracts through the main website.
- In this Ideathon my team and I made a supply chain management system for farmers in which we try to remove the middle men.

EDUCATION

Indian Institute of Information Technology

Bachelor of Technology - Electronics and Communication Engineering;

Dharwad, Karnataka

Nov 2020 – May 2024

SKD Academy

Senior Secondary - CBSE - PCM;

Lucknow, Uttar Pradesh

PROJECTS

CRYPTO NEWS APP [Git Hub](#) | | *HTML, CSS, JS, React JS, Node JS, Express JS, Mongo DB.*

- * Build a simple UI through which users can see stock market news and cryptocurrency prices.
- * Through the use of API the news of cryptocurrencies is shown in the project.
- * By the use of a API it was easy to show the prices of different cryptocurrency prices.

FLASH LIBRARY [Git Hub](#) | | *HTML, CSS, JS, Node JS.*

- * Navigating Flash Library is a breeze with its intuitive and visually appealing user interface.
- * Users can easily browse through an extensive catalog of books, organized by genres, authors, or other relevant categories, ensuring a delightful and streamlined experience.
- * Made a responsive design :-Access your favorite books from any device, whether it's a desktop, tablet, or smartphone

EZEE CARE [Git Hub](#) | | *HTML, CSS, React JS, Node JS, Solidity, IPFS, Moralis, Binance.*

- * Blockchain Based Health Record Management System
- * Quicker and easier retrieval of medical documents with smart contracts and ipfs.
- * Easy Sharing of health records by scanning QR Codes of respective doctors or entering a code.

TECHNICAL SKILLS

Languages: C/C++, Python, Java, SQL , JavaScript, HTML/CSS, Solidity

Frameworks:Node JS, Express JS

Library:React JS

Strong Area:Data Structure and Algorithms, Complexity Analysis

Developer Tools: Git, Git Hub, VS Code, Visual Studio, PyCharm,Truffle,Ganache,Metamask

Databases:Mongo DB,MYSQL

Technologies:Blockchain,Machine Learning

CS Fundamentals:Object Oriented Programming, Database Management System, Operating System,Computer Networking
