Skills

Automation - Proficient in Python based RPA development for repetitive tasks.
Advanced

ETL Pipelines - Skilled at creating efficient data integration through ETL pipelines, ensuring seamless data flow and accurate analysis.
Advanced

Data Integrity Assurance
Upper intermediate

Relaying Complex Information
Upper intermediate

Passionate learner aspiring to work in a globally challenging environment. Skilled in process optimization, automation, database management, and analytics. Aiming to innovate and implement new ideas for organizational value and professional growth.

Work History

2023-01 -
Current

ASSOCIATE ANALYST

EOX VANTAGE, Bangalore

- **RPA Development:** Python-based automation for repetitive tasks and processes.
- **ETL jobs:** Talend and N8N for ETL processes.
- **VBA Scripting:** Automating Excel processes for data transformation and manipulation (RPA and ETL).
- **Sentiment Analysis:** Extracting and analyzing opinions and emotions from text data and other feedback loops.
- **Azure Document Intelligence:** Advanced document extraction.
- **Premium Rating Model Development:** Building models to predict insurance premiums based on policy endorsement data.
- **QR Code Generation:** Automating QR code generation for task management and tracking.
- **AI-powered Automation:** Leveraging *GPT API, Claude API, Mistral API* for KPO automation.

Key Highlights:

- Streamlined data scraping and analysis for storage tank details, enhancing client efficiency.
- Automated insurance premium calculations, reducing manual processing time and errors.
- Efficient data integration through ETL pipelines, ensuring seamless data flow for accurate analysis.
